Dear Friends,

We trust this finds you and your family doing well and enjoying the summer.

Your synagogue leadership has been hard at work to continue our mission of creating a strong, spiritual Jewish presence to our "family of families." We have been able to open up our sanctuary to all that wish to attend in person as well as provide live stream to those who wish to join us virtually.

Rosh Hashanah and Yom Kippur are around the corner and we're already busy planning so that we can enjoy each other's company during the Days of Awe. This year we will be having one service for each of the high holiday services. Our current plan is to open up our services for all to attend along with being able to join with live stream.

We understand how important it is to be able to worship in our synagogue with your extended family and friends. We are pleased to announce that the temple will be able to accommodate your guests. Information regarding purchasing tickets for guests who would like to attend either in person or through a live stream option will be forthcoming.

L'shalom,

Marcy Samuels, President
